ORCID 0009-0008-2023-5604

Academic Appointments

Bates College, Lewiston, ME — 2026–present
Visiting Assistant Professor of Economics

Northeastern University, Boston, MA — 2026–present
Visiting Research Fellow, Dukakis Center for Urban and Regional Policy

Northeastern University, Boston, MA — 2023–2026
Postdoctoral Research Fellow, School of Public Policy and Urban Affairs
Faculty mentors: Alicia S. Modestino and Mindy Marks

Education

University of North Carolina at Greensboro — 2023
Ph.D. in Economics
Dissertation: *Essays on Mobile-Device Locations and Labor Markets*
Committee: Martin S. Andersen (Chair), Dora Gicheva, Marie C. Hull

Central University of Kerala, India — 2018
M.A. in Economics

SGTB Khalsa College, University of Delhi, India — 2014
B.Sc. (Honors) in Mathematics

Fields

Labor economics; economics of artificial intelligence; urban economics; applied microeconometrics.

Research Affiliate, Global Labor Organization (GLO)

Job Market Paper

"Splitting the Stack: Generative AI and the Cross-Country Division of Technical Work"

American multinationals split their technical work across countries, building models at home and testing and running software abroad. I follow about 4,500 U.S. multinationals across the United States, India, the United Kingdom, Mexico and the Philippines, read each job posting into one of seven kinds of technical work, and interpret placements through a multi-destination model of trade in tasks. Destinations do not rank tasks alike: India specializes in technical application and testing, the United Kingdom and the Philippines in functional application and AI governance, and the most doctoral-intensive jobs are 30 to 81 percent less likely to be placed abroad. Over a decade India gained every kind of work, yet its gap in model building never closed. ChatGPT's release brought no unusual change in how technical work is divided between the United States and India; the largest shifts came with remote work in 2020–21.

Peer-Reviewed Publications

"Simply Can't Wait: Evaluating the Effect of Food Industry Minimum Wage Increase in California on Local Labor Markets." *Applied Economics Letters*, 2026.
Media coverage: *Inc.* Magazine; Phys.org.

"Behavioral Responses to Time-Varying Congestion Pricing: A Natural Experiment from NYC." *Applied Economics Letters*, 2026.
Media coverage: Social Storytellers Collective.

Revise and Resubmit

"Where the Rubber Meets the Road: Examining Efficiency and Equity in Designing Summer Youth Employment Programs" (with Alicia Sasser Modestino, Mindy Marks and Hanna Hoover). IZA Discussion Paper No. 17737. Revise and resubmit, *Journal of Policy Analysis and Management*.
